I am very pleased to welcome you to the 15th edition of Balkan Cup, hosted by the Montenegrin Kendo Federation at the city of Podgorica.

We have all grown together from the time of first Balkan Cup held in Bulgaria, and hopefully in time we will get even bigger and stronger. Today, we are pleased to welcome 170 competitors from 11 Balkan countries and friends. I hope that our country, situated between mountains and the sea, will inspire you to enjoy your time here, find new, or renew old friendships and make use of your fighting spirit to have good competition.

Kendo is based on the concept of "polishing one's mind, forging one's body, and striving to develop a pleasant character." Kendo is not just about winning and losing, it contributes to personal development through everyday practice by improving mental and physical strength, and fostering respect and courtesy. It is my wish that the competitors will demonstrate the fruits of their hard training through good matches.

I would like to thank all of you for visiting our country and paying your respect to us with your attendance.

*Wish you all good time here.
Welcome to Montenegro.*

Dejan Đurašković

President of Montenegrin Kendo Federation
